

```
# Project 7 Solutions

# Student Name: Elizabeth McGuckin

# Peer Collaborators (if any) and nature of the collaboration
# TA help sought (if any) Tyler Netherly
# Online resources used (if any) and weblink for location of resources

# 1a. (3 pts)
# Comment about method of solution:
#used terminal to open this template file
#made file from indyflights.sh its input
Solution itself: cat $1 | grep -c IND

# 1b. (1 pt)
# Comment about method of solution:
#By using the * instead of 1987, I was able to call all years
Solution itself: cat *.csv | ~/indyflights.sh
# Output from the solution 2338763

# 2a. (2 pt)
# Comment about method of solution:
#indyflights.sh is now called allflights.sh
#airport location is 1st parameter
Solution itself cat 1987.csv | ~/allflights.sh ORD

# 3a. (4 pts)
# Comment about method of solution:
#a year and person's name is used in electionscript.sh
#it is used to return money given in election campaign year
Solution itself: ~/electionscript.sh "FARHAT, LILLIAN" 2020
```
